

Dear Business Owner,

My name is Lisa Kay, I am President of a new equestrian club we call, SoCal CMSA, which stands for Southern California Cowboy Mounted Shooting Association. We are an affiliate club of CMSA. SoCal CMSA is the newest club in Southern California for the exciting sport of Cowboy Mounted Shooting. Cowboy Mounted Shooting is both a shooting sport and equestrian sport which can be enjoyed by the whole family. It is currently the fastest growing equestrian sport in the USA! It has just been added to the NFR in Las Vegas for the first time this year!

The object is to run a timed pattern of 10 balloons, shooting five that are set in a random pattern with one of the two 45. single action six shooters, changing guns and shooting the other five with the other gun. In most cases there is a barrel turn and then the last five targets are set in a strait line called "The Rundown." The blanks consist of a mixture of black powder, which provides a spray of about 10 to 15 feet to break the balloons. The SOCAL CMSA use blanks which are made with crimped end brass no wadding. We have levels for beginners to professionals, children to seniors.

SoCal CMSA is located in the great town of Norco California, known as Horse Town USA. We currently have our first shoot scheduled for Sunday August 2nd at Ingalls Park Equestrian Center. This will be our home arena. We are also looking to have our clinics and practices at this location as often as possible. We know it is a tough economy and that is why our sponsor fees are so low. We are currently looking for both sponsors and donated items for our first inaugural shoot! Some of the items we would be interested in are, splint boots, saddle pads, headstalls, spurs, fly spray, gift cards or any items you think would make a good award or raffle. Please visit our web site and some of the links we have attached. Our hope for you is to bring awareness of your business and your contribution to our members so you can benefit too. We are proud to say we are a first class professional club and know you would be proud to be affiliated with us!

Sincerest Thanks,

Lisa Kay
President
